

Accounts Winter 1960

# Dormitory Completed; List Contributors

The first major project in St. Ambrose college's 25-year Development Plan — East Hall Dormitory — reached completion when students moved into the fourth floor of the building on Jan. 22.

Although contractors still are completing final details, the building is fully occupied and is a functioning part of the campus.

An open house for alumni, parents, students, friends, and the general public was held January 10 with an estimated 2,500 persons visiting the new dormitory, which at that time had three floors occupied.

Special guests were those persons who contributed to the Special Dormitory Furnishings Campaign which to date has reached over \$40,000. Gifts still are being received for various furnishings and it is anticipated
