

Tiedemann Hall

The new residence hall - Tiedemann Hall - was constructed in 1996 and provides suite style housing for upper-class students. Each suite houses four students and includes two bedrooms, a common living area, kitchen and bathroom.

Each floor contains a study lounge.

In the fall of 2000, a new hall connected to Tiedemann Hall will open, providing four- and six-person apartments with single bedrooms, a common living area, kitchen and bathrooms.
